

Celebrating a hundred years...

of steel as enduring
as our values

When The Tata Iron & Steel Company Limited, now Tata Steel, was registered on 26th August in 1907, it marked the genesis of Asia's first integrated steel plant. Since then, never losing sight of the values propounded by our Founder Jamsetji Nusserwanji Tata, we continue to create wealth and well-being for the communities and the nations where we operate. Making business a tool to improve the quality of life, we follow the highest standard of corporate governance, delighting customers, reinforcing the trust all stakeholders repose on us, filling every member of the Tata Steel Family with pride.

On our hundredth year, we reaffirm our commitment as a global citizen to embrace common cultures, based on shared values. And look forward to enriching more lives across more communities for another hundred years and more.
